Stonewall

Stonewall

The Queen is dead
After the drag show
Lady in the paper said
'Got what he asked for'They have the secret code
They have the secret kiss
That I wanna knowThe boys club lets the girls in
If they look good
The doorman kept calls
Smell finds his footThey have a secret code
They have a secret kiss
That I wanna knowSitting among the great unwashed
Waiting for the rain to start
Everyone's lives seem so clear
Watching from hereThey have a secret code
They have a secret kiss
That I'll never know
