Love No More

Rusko

I met this this girl,
in the project down by frenchman poor,
run the roll like a river so we lost her soul,
when she come there aint but chat and den we lost control,
we exchange numbers, exchange lyrics, and she wants my world.
Some date and share kisses, that one expression stand,
she promises love and her caresses when she took my hand,
she made me feel I was the one, and truly she wants mine,
she got me whispering her name, yes I was sun blind.
So she used me from the first breath,
me said she used me from the first date.
She made me think that she could give some more,
she played me just like a cheap guitar.
Say I love it to the world,
so I love you, now its just a word.
She use it every time she need it,
every time she preaches,
every time that I love me, well...
She told me love you many times,
but I don't believe you love,
Nooo...
She told me love you many times,
but I don't believe you love,
Nooo...
So she used me from the first breath,
me said she used me from the first date.
She made me think that she could give some more,
she played me just like a cheap guitar.
Say I love it to the world,
so I love you, now its just a word.
She use it every time she need it,
every time she preaches,
every time that I love me, well...
We were dancing reggae,
singing reggae,
enjoy reggae,
on the beach smoke like red foot Indian reggae.
The one truth is that the face of pain is not cute,
she dash nowhere like unknown youth.

I'm feeling like I lost the flow, I flop my show, I was sinking too slow,
I came and I said, you should pack up and go, I'm not a yo-yo.
So she used me from the first breath,
me said she used me from the first date.
She made me think that she could give some more,
she played me just like a cheap guitar.
Say I love it to the world,
so I love you, now its just a word.
She use it every time she need it,
every time she preaches,
every time that I love me, well...
