

Forever Autumn

Lake of Tears

So the season of the fall begins
Down the crossroads in a sleepy little inn
By the fire when the sun goes downBut the night becomes you
And the secrets of the rainForever autumnAnd the season of the fall begins
Out the nightlands when the thunderstorm sets in
The secrets clear in the cloudy nightBut the night becomes you
And the secrets of the rain they will stay the same
And the time will come soon
With the secrets of the rain and the storm againComing closer every day, forever autumnAnd the season of the
fall begins
Past the pass nobell past willow is weeping
A ripple forms on the brinks of timeBut the night becomes you
And the secrets of the rain, they will stay the same
And the time will come soon
With the secrets of the rain and the storm againComing closer every day forever autumn
