

Lost

Toby Lightman

Its so hard to sleep, when nobodys home
Its hard to wake up, when you know youre gonna wake up alone
Its been too long, since you left me here, on my own.
Its gettin hard to carry on, I need to have you next to me.
I cant find my way, when youre the only one I see.
When I close my eyes, its darker than I thought itd be.
When youre gone, when youre gone,
I am lost, lost
I cant forget, the way you feel
I need to let go, gonna need a little time to heal
Its been so long, Ive been standing still
And I cant look back
Gonna find a way to carry on.
I need to you have you next to me
I cant find my way when youre the only one I see.
When I close my eyes, its darker than I thought itd be.
When youre gone, when youre gone,
I am lost, lost
I am lost, lost
I am lost when I cant hold you in my arms
I am lost when I cant feel you in my heart
I am lost in this maze dont know where you are
I am lost, I am lost
Oooohhhhh
Gonna find a way to carry on
I need to have you next to me
I cant find my way when youre the only one I see.
When I close my eyes, its darker than I thought itd be.
When youre gone, when youre gone
I am lost, lost
I am lost, lost
I am lost, lost
I am lost, lost.
