

Beautiful Bluebird

Neil Young

One mornin' when I was ridin' in my old pickup truck
A beautiful bluebird came flyin' down
My eyes caught the color, as it lead me down the road
Dippin' and bobbin' in the sun Beautiful bluebird, see how she flies
Looks like she's always goin' home
If heaven had a window where the sun came shinin' through
Like a beautiful bluebird, I'd come flyin' back to you Beautiful bluebird, see how she flies
Looks like she's always goin' home I've never seen that blue before, except in one place
And she's not here with me right now
And just like a lover, I watched her fly away
And that's what I remember now Beautiful bluebird, see how she flies
Looks like she's always goin' home
If heaven had a window where the sun came shinin' through
Like a beautiful bluebird, I'd come flyin' back to you Beautiful bluebird, see how she flies
Looks like she's always goin' home If heaven had a window where the sun came shinin' through
Like a beautiful bluebird, I'd come flyin' back to you
If heaven had a window where the sun came shinin' through
Like a beautiful bluebird, I'd come flyin' home to you
