Figurine Queen

Holy Oysters

Figurine queen where have you been
Day after day I have foreseen
Figurine queen what do you mean
If we cannot do this we cannot win

Figurine queen where have you been
I feel like I'm in a submarine
I figured you couldn't be so mean
No matter how the grass was green

Think it's time to leave it all behind
And tell you my goodbyes
And keep it off my mind (x2)
My mind

Figurine queen where have you been
So many things left to be seen
Figurine Queen why be so mean
If I can't do this we cannot win

Think it's time to leave it all behind
And tell you my goodbyes
And keep you off my mind (x2)
My mind

Figurine, Queen, where have you been
All alone in a cage with the wind
Figurine queen how do we begin
Looking back you've lied it's a sin

Think it's time to leave it all behind
And tell you my goodbyes
And keep you off my mind
Off my mind
