

# Breaking Down

## Ananda Project

    Patiently I wait for you to come to me  
        Can't you see me breaking down  
            It's another day without sleep  
It's another night without dreams, dreams Full moon and my eyes are wide  
        I will wait for you till the sky turns blue  
When the time is right Make me dance, make me move in time  
        I can't go to sleep when I hear the beat  
    I come alive Patiently I wait for you to come to me  
        Can't you see me breaking down  
            It's another day without sleep  
It's another night without dreams, dreams Kiss me deep, don't leave with life  
        All night all day, I just can't wait  
    You make me high Hey, baby, where you been this time  
        Your insatiable and I just can't hold  
All my love inside Patiently I wait for you to come to me  
        Can't you see me breaking down  
            It's another day without sleep  
It's another night without dreams, dreams Patiently I wait for you to come to me  
        Patiently I wait for you to come to me  
        Patiently I wait for you to come to me  
Patiently I wait for you to come to me To come to me, to come to me  
To come to me, to come to me Patiently I wait for you to come to me  
        Patiently I wait for you to come to me
