Slow Down

Halford

Let it be
Still my anger
Bring me peace
From my temper

I'm trying every way I can
I'm doing wrong I understand

Let it be, slow down, watch the pressure fall
Bring me peace, slow down, I can't have it, I can't have it all.

Break the strain
Feed my hunger
Tell my mind
To be stronger

I've got to move and make it real
I've got to make myself a deal

Break this strain, slow down, give up what I crave
Tell my mind, slow down, watch what I can, watch what I can save.

Will I rise
Out of shadow
Staying calm
Felling hollow

I'm here to give me one more chance
That choice is resting in my hands, yeah

Let it be, slow down, watch the pressure fall
Bring me peace, slow down, I can't have it, I can't have it all.

Break this strain, slow down, give up what I crave
Tell my mind, slow down, watch what I can, watch what I can save.
