

So Long

Sissy

I must have known I was healing tonight
I must have known I'll taste things that go lies
I must have have known
I'll close my eyes
and don't say no

I must have known all that happens all the time
I must have known not so happy my whole life
I must have known
I'll close my eyes
and don't say no

So long
I'm waving
So long
I'm waving goodbye

So long
I'm waving
So long
I'm waving goodbye

So long
I'm waving
So long
I'm waving goodbye
and don't say no

So long
I'm waving and don't say no
So long I'm waving goodbye
