

This Is The Life

Living Colour

Eee, eee

Eee, eee

In another life you might have been a genius

In another life you might have been a star

In another life your face might have been perfect

In another life you'd drive a better car

In another life all your jokes are funny

In another life your heart is free from fear

In another life you make a lot of money

In this other life everything is clear

In another life you're always the hero

In another life you always win the game

In another life no one ever cheats you

In another life you never have to change

In another life your friends never desert you

In another life you never have to cry

In another life no one ever hurts you

In this other life your loved ones never die

But this is the life you have

This is the life you have

This is the life you have

This is the life

In another life you're always the victim

In another life you're always the thief

In another life you're always lonely

In this other life there is no relief

In your real life treat it like it's special

In your real life try to be more kind

In your real life think of those that love you

In this real life try to be less blind

This is the life you have

This is the life you have

This is the life you have

This is the life you have

Hee, hee, hee, hee
