

The Music I Like (Xenomania Club Mix)

Alexia

your love is coming into my life
it makes me feel good inside
I need a moment of ecstasy
a feeling higher than highthis is the music I like
this is the music I like
this is the music I like
this is the music I like
this is the music I like...
your love is coming into my life
it makes me feel good inside
I need a moment of ecstasy
a feeling higher than highI want to live with my fantasy
dancing into the light
and I can play with my destiny
it makes me feel satisfiedthis is the music I like...a fire's burning inside of me
feel the rhythm of life
I need your loving to set me free
I want you to stay by my sidethis is the music I like...
your love is coming into my life
it makes me feel good inside
I need a moment of ecstasy
a feeling higher than highthis is the music I like
