Sway

Vanessa Carlton

My heart, your hands, gentle my friend
Break me neatly, numb me sweetly
Say you would, say you could
Say you'd come and stop the rain
Say you'd try and hold me tight
And you just give me away
Make me high on lullabies
A melody for me to sway
Say you would, say you could
And you don't do anything
Come down heavy, try and steady
Precious ladies, love you, love me
Say you would, say you could
Say you'd come and stop the rain
Say you'd try and hold me tight
And you just give me away
Make me high on lullabies
A melody for me to sway
Say you would, say you could
And you don't do anything
Hold my head up to the lies that you feed me
And I'll fall under the spell you cast as you let me down
Say you would, say you could
Say you'd come and stop the rain
Say you'd try and hold me tight
And you just give me away
Make me high on lullabies
A melody for me to sway
Make me high on lullabies
A melody for me to sway
Say you would, say you could
Say you'd come and stop the rain
Say you'd try and hold me tight
And you just give me away
Make me high on lullabies
A melody for me to sway
Say you would, say you could
And you don't do anything
Say you'd come and stop the rain

Say you'd come and stop the rain
Say you'd come and stop the rain
Say you'd come and stop the rain
