

Stay the Night

Brian McKnight

I want you so
Try to say how I feel when I'm holding you close to me
But my temperature rises so I can hardly believe
That finally you came to me we made loneliness our enemy
Don't go, don't you know
Feels so right, and I can hold you longer
If you stay the night, oh
The time is right and we will grow much stronger
If you stay the night tonight pretty baby
Stay the night
Words cannot express to you how I'm burning up deep inside
I took one look and I knew this was a feeling I couldn't fight
But now that you're here with me now that you're here with me, hey
Let's make togetherness our destiny, don't go
Feels so right, and I can hold you longer
If you stay the night, oh
The time is right and we will grow much stronger
If you stay the night tonight with me baby
At the start I thought it was too good
To be true, but know I know that all along
It should have been me and you
At the start I thought it was too good
To be true, but know I know that all along
It should have been me and you
Feels so right
If you stay the night
The time is right
If you stay the night
Feels so right, and I can hold you longer
If you stay the night, oh
The time is right and we will grow much stronger
If you stay the night
It feels so right
