

The Game Is On

David Arnold & Michael Price

Have you seen this little toy?
When you're down it gives you joy
You escape reality
Delve into it's TV screen For the rich and for the poor
For the even more secure
Doesn't matter where you are
Where you go or where you've been Well, there's still no guarantee
For your virgin mind you see
Just go on and play the game
You will surely go insane The game is on and you have gone
Gone to a world on its display
And the game is fun but when it has won
All you ever hear is what it says There's a great amount of fumes
Coming out from somebody's rooms
The firemen got there
Making their way up the stairs Find a man in a chair
But it doesn't seem he's there
With a gray box in his hands
He has gone to another land The game is on and you have gone
Gone to a world on its display
And the game is fun but when it has won
All you ever hear is what it says You have played it much too long
Now your senses get things wrong
All your walls come crashing down
Now it's time for you to frown How'd you like this heavy load?
Guess your brain will soon explode
You never had this ugly feel
Time to die, emergency! The game is on and you have gone
Gone to a world on its display
And the game is fun but when it has won
All you ever hear is what it says The game is on and you have gone
Gone to a world on its display
And the game is fun but when it has won
All you ever hear is what it says The game is on
The game is on
The game is on
