

# No Answers / No Reasons

## Klank

So many times you ask me  
What's my point of view?  
I tell you time and time again  
It doesn't matter I'm not you  
Don't go by all the things  
That people do or say  
I offer this advice but  
You don't listen anyway  
You want to know what I would do  
What makes you think I even have a clue  
You want to know what I would do  
What makes you think I even have a clue  
Why bother speaking  
When nobody gives a damn  
What good are words when no one  
Ever tries to understand  
I live my life  
The best way that I can  
I hold no cures or answers  
Tomorrow has it's own plan  
Why can't you grasp the fact  
That we are who we are  
The only difference is that we're  
Wishing on different stars  
You want to know what I would do  
What makes you think I even have a clue  
You want to know what I would do  
What makes you think I even have a clue  
No answers  
No reasons  
No answers  
No reasons  
You want to know what I would do  
What makes you think I even have a clue  
You want to know what I would do  
What makes you think I even have a clue
