

# Space Song

## Beach House

It was late at night  
You'd held on tight  
From an empty sea  
A flash of lightIt will take awhile  
To make you smile  
Somewhere in these eyes  
I'm on your sideYou wide eye'd girl  
You get it rightFall back into place  
Fall back into placeTender is the night  
For a broken heart  
Who will dry your eyes  
When it falls apartWhat makes this fragile world go 'round?  
Were you ever lost  
Was she ever found?Somewhere in these eyesFall back into place  
Fall back
