

# Wake Up!

## Shooter Jennings

they say good fences  
make good neighbors  
for you my friend  
this might be true  
but you still gotta put  
the boards on the windows  
to the soul inside of you  
that t.v. in the corner  
that's their greatest tool  
they poison you mind  
when you're a child  
with their fear  
and their guilt  
and their rules  
they teach you that you're just a number  
as they program you in school  
so by the time you're out  
in their world on your own  
you've been trained not to bite  
the hand of the cruel  
wake up!

Don't believe that the system is failing  
Don't believe that the planet is dead  
They'll keep all the food for their fat fucking bellies  
and the starving will kill or be fed  
and they'll try to turn me against you  
so divided, we'll turn to them  
because anything strong cannot be conquered from without  
before first being conquered from within.  
Don't let them get you down.  
Don't let them get you down.  
Don't let them get you down.  
Don't let them get you down.  
Don't let them get you down.  
Don't let them get you down.  
Life is a movie, we are all actors  
Don't let them edit you out.  
Life is a movie, we are all actors

Don't let them edit you out.  
Don't let them get you down.  
Don't let them get you down.  
Don't let them get you down.  
Don't let them get you down.
