Venus

Linea 77

Believe
you're the one
Noone is making a move
please keep it secret.Have a nice day X 3
we are looking for the coreYou first
and then all the other
Venus is lookin' at you!
Don't keep her waiting!Have a nice day X 3
we are looking for the big black holeFor my unique, raving waving
i'm glancing from the peak
of my badly, hidden
overconfidence...
c'mon now...my love...
please give me another bone!
Venus here i am
we're dancing,
mindless...
let the rain caress our fragile wings
A lysergic trip on Venus
here i am...don't stop X 2Venus...is looking at you!We are naked on the floor
escaping from the big black hole! hole! hole!
Venus...
hole! hole! hole!
here i am!
We are naked on the floor
escaping from the big black hole! hole! hole!
Venus is looking at you!
escaping from the big black hole!Forget, forget, forget
disregard the rest
everything is over now!
planet Earth looks so beautiful from space!
lovely and harmless.
We are the strangers looking for the water.
Sand like dust in my hands
it's time to come back home with a new sense.
wake up!
please give me another bone!
don't stop...here i am!
don't stop!We are naked on the floor

escaping from the big black hole! hole! hole!
Venus...
hole! hole! hole!
here i am!
We are naked on the floor
escaping from the big black hole! hole! hole!
Venus is looking at you!
escaping from the big black hole!
