

The Globalist

Muse

You were never truly loved
You've only been betrayed
You were never truly nurtured
By churches or the state
You left unprotected
To these wild and fragile lands
That you could rise up like a god
Arm yourself, you can be strong
You can build a nuclear power
Transform the earth to your desire
Free your mind from false beliefs
You can be the commander in chief
You can hide your true motives
To dismantle and destroy
Now you finally have good
I have given you good There's no country left
To love and cherish it's bond
It's gone for good
It's here and maybe
Survivors
To hunt and gather memories
Of the great nation we were
There are no countries left
To fight and conquer
I think I destroyed them all
It's human nature
The greatest
Until we'll survive alone
With no one left to love There's no country left
To love and cherish, it's gone
You know it's gone for good
A trillion memories last in
Space and time forever more
I just wanted, I just needed to be loved
