

Area 52

Klod Rights

[Verse 1]

Message came from outer space
Future of the human race
Help is not gonna hide it's face
Let it go, she'd your skin
Children will never sleep again
Explain

[Chorus]

I wanna be your passenger
Take me as your prisoner
I want to be an alien
Take me please, oh alien
I wanna be an alien
Take me

[Verse 2]

Your instruments can't stop our ships
Soon you'll be up in it
Rest will all be blown to bits
Let it go, have your day

Space will take your kids away [Chorus] [Verse 3]

You must taste our violent fuzz
Your wars are of no use to us
You cannot fix what never was
Let it go, have your day
The media is on it's way [Chorus]
