

Go Ahead and Leave Me

Tommy C

[Verse 1]

Ever since the day we first met,
Bits and pieces I can't forget
All the times you made me smile
All the times you made me cry. Now I'm left with broken pieces

Memories, I can't live with,
Standing all alone in the cold. [Pre-Chorus]

(Why did I hurt you?)

I was blind and didn't see, babe

(Why did I leave you?)

All alone, on the stranded road

(Why did I treat you?)

Like a fool, now I pay the price.

Now all I have is emptiness

And all I know is [Chorus]

When I fall asleep at night

There is only one thing on my mind

It's that certain day we said goodbye

I won't stop you

Go ahead and leave me You deserve a brand new start

With a man that wouldn't break your heart

I know I did you wrong so go and leave

Go ahead and leave me

Go ahead and leave me

Go ahead and leave me

Go ahead and leave me [Verse 2]

Now I'm lost in all this sorrow

Thankful that there's tomorrow

Another day for me to smile

Another day for me to cry. Reminiscing about one thing

It's that day you took off my ring

Left it on the shelf and slammed the door [Pre-Chorus]

(Why did I hurt you?)

I was blind and didn't see, babe

(Why did I leave you?)

All alone, on the stranded road

(Why did I treat you?)

Like a fool, now I pay the price.

Now all I have is emptiness

And all I know is[Chorus]
When I fall asleep at night
There is only one thing on my mind
It's that certain day we said goodbye
I won't stop you
Go ahead and leave me You deserve a brand new start
With a man that wouldn't break your heart
I know I did you wrong so go and leave
Go ahead and leave me
Go ahead and leave me
Go ahead and leave me
Go ahead and leave me[Ending]
When I fall asleep at night
There is only one thing on my mind
It's that certain day we said goodbye...
