Forever (is As Long As It Lasts)

Jon Secada

I want to love you 'til forever comes
I want to give you everything under the sun
One day at a time, I'll share with you my life
And our forever ends the day we say goodbye
'Cause forever is as long as it lasts
Don't wait 'til tomorrow let's enjoy today
The promise we made forever may just fade away
So one day at a time, appreciate my love
And our forever ends if we should ever say goodbye
'Cause forever is as long as it lasts
And no matter where you go
No matter what you do
The love we share right now will always be a part of you
'Cause forever is as long as it lasts

I'm yours forever
(Forever is as long as it lasts)
(Never say never)
(Forever is as long as it lasts)
Let's stay together
(Forever is as long as it lasts)
It only gets better
As long as we can make it last
One day at a time, I'll share with you my life
And our forever ends the day we say goodbye
No matter where you go, no matter what we do
The love we share right now will always be a part of you
'Cause forever is as long as it lasts
