

Stupidity (featuring Al Jourgensen)

Front Line Assembly

Hey
Why the fuck do you even think i care
I hope you all go away and die
The whole world needs to start all over
But that will happen when pigs will fly I'll kill all you motherfuckers Stupidity
That's all i ever see
Stupidity
It's moral poverty Go What the fuck is really going on
There's no governments just corporate greed
Everybody wants a bigger bomb
Let's blow them up
And start a new breed
I'll kill all you motherfuckers Stupidity
That's all I ever see
Stupidity
It's moral poverty I just look around
At all these dumb motherfuckers
And all I wanna do is go over to a shopping mall
And open fire Cos that's what is required
That's what is required Stupidity
That's all i ever see
Stupidity
It's moral poverty
Stupidity
We call it society Stupidity
Go fuck yourself
