

# Never Too Old to Dance In the Kitchen Blues

**Rick Benn**

When I'm gone she turns the radio on dancing and singing and humming an old country song  
I'm out singing the tunes she's home singing them to never too old to dance in the kitchen blues

Got my clothes all done load my PA up got a sign on my van that says Courtney or bust  
Fill my cooler up almost time to go only two hours till I start my show

When I'm gone she turns the radio on  
Dancing and singing and humming and old country song  
I'm out saying the tunes she's home singing them to  
Never too old to dance in the kitchen blues

Drives home along the ocean music cranked up loud  
Been working all week, can't believe it took so long  
Somethings going to hit her when she makes that drink  
The weekends here and she don't want to think

Chorus

I'm pulling in the driveway she's asleep on the couch  
Been dancing all night music rocking and loud  
she wakes up and says honey how did it go?  
I said I had a really good rock 'n' roll show

Chorus
