Nightwalker

Gino Vannelli

I sleep at night
On a cloud high on the horizon
And when I close my eyes
My soul is struck by lightning
Then I sleep at night
Like a stormOh, I walk the night
'cause your head is gone from my pillow
And when the twilight shines
My eyes crash through the windows
'cause I sleep at night without youWhen it's dark and the night lays me down
When the moon shines the light on the ground
I just run where my thoughts take me to
'cause I can't live in this world
Without love without you
I walk the night
I walk the nightOh, I dream at night
It must be a madman's rainbow that I'm chasing
'cause when I close my eyes
I feel your sweet sensation
'cause I dream at night about youWhen it's dark and the night lays me down
When the moon shines the light on my ground
I just run where my thoughts take me to
'cause I can't live in this world
Without love without you
I walk the night
I walk the nightI just run where my thoughts take me to
'cause I can't live in this world
Without love without you
I walk the night
I walk the night
