

Stranger (feat. Future Unlimited)

Miami Horror

oooo o
oooo o
oooo oit took me higher from the start,
out of ordinary love
now your changing with the wind,
new horizons born again
twisted eyes burn through your heart
it's slowly tearing us apart
theres nothing left to think or say
we'll never be that wayyour a stranger
a stranger
again,your a stranger
a stranger than a friend
strangersstrangersstrangersyou keep me hanging
keep me dark
never let me drift to far
like a stranger in the wind
forget this all beganyour a stranger
a stranger
again,your a stranger
a stranger than a friendlike a strangerrrr
like a stranger like a stranger i'm in a different place
like a stranger like a stranger in a different place,
different phase
a stranger
a stranger
again,your a stranger
a stranger
again,it feels so wrong
but it feels so right
when your out of mind and out of sight
it feels so wrong
but it feels so right
just another phase to pass the timeyour a stranger
a stranger
again,your a stranger
a stranger than a friendyour a stranger now
a stranger then
a stranger once againyour a stranger now

a stranger then
a stranger once again you walk on,
I'll be dead soon again
