

# Life, Life, Life

## Y&T

It's a bloody scene  
Hear the population scream  
As the missile rushes in Can't you feel the flames of hell?  
Can't you hear the tollin' bell?  
It's the sound of the world comin' to an end Is it too late, too late?  
To make the politicians bend  
We let the insane play their fools game  
They're runnin' a race for death We want, life, life, life  
You'd better pull your head out of the sand  
If you want, life, life, life  
It's time to break down the chain of command When will they be satisfied?  
After everybody's died?  
That's the way it seems to be Not only the USA  
Everybody's to blame  
We've got to stop the war machine Is it too late, too late?  
To stop their evil master plan  
It's a fools game and a mistake  
When they laugh in the face of death We want, life, life, life  
You'd better pull your head out of the sand  
If you want, life, life, life  
It's time to break down the chain of command [Incomprehensible]  
We want life That's right we want, life, life, life  
You'd better pull your head out of the sand  
If you want, life, life, life  
It's time to break down the chain of command We want, life, life, life  
You'd better join up with the living  
It's time to make a stand for, life, life, life  
It's time to break down the chain of command Is it too late, too late  
Too late, too late  
Too late, too late  
Too late, too late  
Too late, too late?
