Red Sea

Isis

Heat seeps in holes
Heat seeps in soulsSweat soaked yellow shroud
Breathless protection
Daggers where the eyes should be
Blood running down your cheeksEyes in black suns direction
Feet burning insects stingingSweat soaked yellow shroud
Breathless protection
Daggers where the eyes should be
Blood running down your cheeksBegin
Inject
Remove
The pointThe ocean spreads beneath the skin
Fluid fills blackened lungs
Tar seeps across the eyes
Away in the sea of red
