# String Of Lies

## Goo Goo Dolls

I've got no politics, no influential friend or two
I've got ideas, but it's nothin' I picked up at school
I might be running, but I'm never running back to you
And here's a letter from the real world, I don't expect you'll reply
And anything you're gonna tell me, it's just another lie
I had to wait so long that weeks and months that passed me by
You've got no power and my situation don't apply
You ask me how I am, I lie and say, "I'm doing fine"
And with your sugar-sweetened alibi, there was a truth I never knew
And all the attitude you gave me, it's coming back to you
String of lies, it's always compromise with you
String of lies, you know there's nothing better to do
String of lies, it's been a string of lies with you
And here's a letter from the real world, I don't expect you'll reply
And anything you're gonna tell me, it's just another lie
String of lies, we always compromise for you
String of lies, you know there's nothing better to do
String of lies, it's been a string of lies with you
String of lies, we always compromise for you
And here's a letter from the real world
