

# String Of Lies

## Goo Goo Dolls

I've got no politics, no influential friend or two  
I've got ideas, but it's nothin' I picked up at school  
I might be running, but I'm never running back to you  
And here's a letter from the real world, I don't expect you'll reply  
And anything you're gonna tell me, it's just another lie  
I had to wait so long that weeks and months that passed me by  
You've got no power and my situation don't apply  
You ask me how I am, I lie and say, "I'm doing fine"  
And with your sugar-sweetened alibi, there was a truth I never knew  
And all the attitude you gave me, it's coming back to you  
String of lies, it's always compromise with you  
String of lies, you know there's nothing better to do  
String of lies, it's been a string of lies with you  
And here's a letter from the real world, I don't expect you'll reply  
And anything you're gonna tell me, it's just another lie  
String of lies, we always compromise for you  
String of lies, you know there's nothing better to do  
String of lies, it's been a string of lies with you  
String of lies, we always compromise for you  
And here's a letter from the real world
