Thank God It's Friday

R. Kelly

Finally the weekend's come
And everything is goin' down
Nine to five and now it's time
For me to get aroundGood poppin' ain't no stoppin'
Everybody's in the mood
Mind blowin' once you feel the music
Startin' to get to youDisco nights, party lights
It's all good for me, yeahThank God it's Friday
Party lights, Friday night feelin' right
It's a party
Thank God it's Friday
Party lights, Friday night feelin' right
It's a partyThrow your hands up
If you're ready to get down and jam tonight
Music's got ya jumpin'
And you're feeling not a care tonightKeep goin', don't you stop
Just let this volume get in you
Take some time out for yourself
And let this Friday get to youDisco nights, party lights
It's all good for meThank God it's Friday
Party lights, Friday night feelin' right
It's a party
Thank God it's Friday
Party lights, Friday night feelin' right
It's a partyOh God, thank you for Friday
Oh thank you heavenly Father
Oo, so many people lookin', lookin' for the spot
There's a party over here, yeahSo many people lookin'
For the party spot
If you find it, let me know
And I'll be there until I dropValet parking at the club
It lets you know it's Friday night
People swayin', music playin'
And this weekend feels so right, yeahThank God it's Friday
Party lights, Friday night feelin' right
It's a party
Thank God it's Friday
Party lights, Friday night feelin' right
It's a partyThank God it's Friday

Party lights, Friday night feelin' right
It's a party
Thank God it's Friday
Party lights, Friday night feelin' right
It's a partyThank God it's Friday
Party lights, Friday night feelin' right
It's a party
Thank God it's Friday
Party lights, Friday night feelin' right
It's a party
