

Devotion

Datura

Devotion, yeah You're reaching for a star in the night
Just wait until the rain makes it fall down
The city's gonna shine in the night
A vision of a devotion You're reaching for a star in the sky
Just wait until the rain makes it come down
The city's gonna shine in the night
A vision of a devotion There is another sound for words
Where nothing's said and joy is heard
There is another word for sound
You see it when you don't listen You're reaching for a star in the night
Just wait until the rain makes it fall down
The city's gonna shine in the night
A vision of a devotion You're reaching for a star in the sky
Just wait until the rain makes it come down
The city's gonna shine in the night
A vision of a devotion You're reaching for a star
Just wait until the rain
The city's gonna shine
A vision of a devotion
