# I Won't Forget This Christmas

## Plus One

What if there was no manger?
No wise men, no savior
Just another day in December
I'd be hopeless, oh, so hopelessBut on that day with the Angels watching, creation waiting
You came as a baby
Like an echo across the world, a cry was heard
And changed everythingSo I won't forget this Christmas
That I am nothing without You
Oh, You are the star that guides my heart
I won't forget this Christmas
(I won't forget)Should I get distracted, bring me back to what matters
All the presents they, they will fade away
You are forever, oh, You're forever
'Cause nothing compares to the gift You gave
My life you saved and so, I promise YouI won't forget this Christmas
(This Christmas)
That I am nothing without You
Oh, You are the star that guides my heart
I won't forget this Christmas
(I won't forget)La la la la la la
I will not forget what You did
La la la la la la
Oh, 'cause You are the life and the breath, the reason I exist
You know I won't forgetSo, I won't forget this Christmas
(No)
That I am nothing without You
(Nothing without You)
Oh, You the star that guides my heart
(You are the star)
You guide my heart
I won't forget this Christmas
(I won't forget)I won't forget this Christmas
(This Christmas)
(I'll never forget it)
That I am nothing without You
(I am nothing without You)
You are the star
(You are the star)
That guides my heart

(That guides my heart)
I won't forget
(I won't forget)
This Christmas
