Into the Fray

Earth Crisis

Cut to pierce and flood
Held it back as long as I could
Coldness spreads within me nowCrushing in and smashing down
Crushing in and smashing downGrab for myself or endure a living death
Into the fray with pure commitmentI must
I willDespite all odds
Despite the obstacles
Despite all odds
Despite the obstaclesCrushing in and smashing down
Crushing in and smashing downCut to pierce and flood
Held it back as long as I could
Coldness spreads within me nowI must
I will
