

# Out of This Bed (feat. Jazzmin Carson)

**Derric Gobourne Jr.**

Good morning sunshine  
The birds are singing just for you  
And here in your arms  
Is where I wanna stay  
For the rest of my days  
Good morning gorgeous  
I had to steal a kiss from you  
The sun is shining through  
It's not coming the blinds  
It's here in your eyes  
Can't be no other way  
You were meant for me I always knew  
Best part of my day  
Is that I always get to wake up next to you, oh  
I can't get up out of this bed  
I can't get up out of this bed  
I can't get up out of this bed  
I can't get up out of this bed  
I can't get up out of this bed  
I can't get up out of this bed  
I can't get up out of this bed  
Another minute, one more minute babe  
Another minute, one more minute babe  
Your loves like a stream, that runs right through me I, I  
Another minute, one more minute babe Another minute, one more minute babe  
A daydream come true, I'm so glad girl for you, ou!  
Good morning lady  
You're getting funner everyday  
I feel so honored  
I can say I'm truly blessed  
You're the angels best  
(Morning love, ouuu)  
Good morning baby  
There's so much love in what you say  
Your body romance  
And you didn't have to say a word  
You're a spirit I heard  
[bridge]  
My body sings when I hear your name

All I do is think about you  
 And the best part of the day  
 Is that I always get to wake up next you, baby  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 Another minute, one more minute babe Another minute, one more minute babe  
 The suns up in the sky  
 But the stars in your eyes, I  
 Another minute, one more minute babe Another minute, one more minute babe  
 In the winter, you're my spring  
 You're bout everything  
 If we face a natural catastrophe  
 By your side you're where I'm gonna be  
 And even if the whole world becomes a walking dirt, baby I'll  
 Never leave this space  
 You are my love song  
 Forever keep you on repeat  
 Our love's a garden  
 And you're my favorite rose  
 (Is that right?)  
 Forever we'll grow  
 (Good morning)  
 Ohhh  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 I can't get up out of this bed  
 Another minute, one more minute babe Another minute, one more minute babe  
 The suns in the sky  
 But the stars are in your eyes, I, I  
 Another minute, one more minute babe Another minute, one more minute babe  
 In the winter you're my spring  
 You're bout everything
