

# In My Diary

Etta James

In my diary  
A lot of things  
I'm gonna write, write about  
The moon and lonely night In my diary  
Oh it's gonna tell her about you  
Tell her all your charms  
And the things you do Diaries are made  
Of the things you do  
And of the people we've met Ohhhh, but my diary is about you  
And I don't want to forget  
In my diary  
I write as plain  
as plain as I get  
a picture with words  
So the world can understand  
Ohhhh so they can understand  
So the world, world, world, world, world, world  
Can understand
