Deep Down

Pam Tillis

You know everyday I walk down memory lane
Trying to find a way past the same old pain
Ah but now the message is loud and it's clear
You know there ain't no way to get there from hereYeah I've finally realized that's the way things are
I got the bleeding stopped but there's gonna be a scar
I know I'll go on living but you're always gonna be around
Deep down, deep downWell, I know an old soldier who walks with a limp
From a war he's still fightin' inside of him
And just like me he'll go to his grave
Nursin' a pain that won't go awayYeah I've finally realized that's the way things are
I got the bleeding stopped but there's gonna be a scar
I know I'll go on living but you're always gonna be around
Deep down, kind of deep downMaybe I really don't wanna be through
With all the memories I have of you
We had some bad times
But we had good times too, yeah, oh yeahYeah I've finally realized that's the way things are
I got the bleeding stopped but there's gonna be a scar
I know I'll go on living but you're always gonna be around
Deep down, kind of deep down
You'll always be around, deep down
