

Pieces of a Man

[SableAlexis](#)

I got a lover who puts it down in the bed
An intellectual who gets inside of my headI got a chef who satisfies my foodie
A good friend for dinner and a movieI got a gentleman to take me to the gala
A good provider who puts food on my tableI got a looker who takes my breath away
I got a Boss who never lets me payWhat I want I want one good man
What I got is pieces of a manToo many men to satisfy my needs
But one good man will bring me to my kneesJust give me one just give me one good man
The whole package
Without all the baggageOoh, I got a joker who always wants to play
A man of faith who ain't afraid to prayI got a handy man who fix stuff when it breaks
A real charmer who got what it takesWhat I want I want one good man
What I got is pieces of a manToo many men to satisfy my needs
But one good man will bring me to my kneesWhat I want I want one good man
What I got is pieces of a manToo many men to satisfy my needs
But one good man will bring me to my kneesWhat I want is a real good man
What I got is pieces of a manToo many men to satisfy my needs
But one good man will bring me to my kneesJust give me one just give me one good man
The whole package
Without all the baggageJust give me one good man
I want one good man
Just give me one good man, just give me, just give me
