

# "c" Moon Cry Like A Baby

## Simple Minds

Cry, cry, cry  
Well cry like a baby  
"C" moon, "C" moon So where do you go?  
Up high, under low  
The devil I know said  
"Something is missing" Outside it's hot, the first of July  
And the look in your eye said  
"Something is missing" Midnight she cried like a baby  
"C" moon, "C" moon, "C" moon  
Cried like a baby Can this be something  
We can't understand?  
Could it be the girl  
Can't understand? Where will we go?  
Up high, under low  
The devil I know said  
"Something is missing" Sweet little angels sing  
'Bout the fast pace of things  
But earth children sing  
"Love will conquer anything" Midnight she cried like a baby  
"C" moon, "C" moon, "C" moon  
Cried like a baby Could it be  
We can't understand?  
Can it be that we can't Cry, cry, cry, cry like a  
Midnight, cry like a  
Whisper, scream like a baby  
Cry, cry like a baby Could this be  
Something we can't understand?  
Cry like a baby, cry like a baby  
Could this something that we  
Can't understand, understand?
