Baby Your Phrasing Is Bad

Caleb

Baby if you'll pardon me
I just can't relax when you're talking to me
I keep turnin' the table
'Cause I'm so unstable when you talk to me

Baby your phrasing is bad
And no meaning can be had
When you talk to me

Please try to make yourself clear
So when you talk to me
It doesn't strain my ears

It's hard to find a reply
Without telling a lie
When you talk to me
Please don't take offence
If I'm feeling tense
When you talk to me

Baby your phrasing is bad
And no meaning can be had
When you talk to me

Please try to make yourself clear
So when you talk to me
It doesn't strain my ears

Guitar Break

Baby your phrasing is bad
And no meaning can be had
When you talk to me

Please try to make yourself clear
So when you talk to me
It doesn't strain my ears
