

Insane

Rockin da North

[Timbaland]Ahh! Whoa! Feel it? Ugh!
This here is one of those joints you just ride out
 Get your thoughts together
 "GG" talk to me

[Candice "Gg" Nelson]I like you 'cause you are above average
 So I might do things you don't understand
 But I like to correct your bad habits
 'cause I want to make you an honest man

[Timbaland]Huh! I got some precise questions bout my past life
 Wondering why we so close to buildings on this last flight
 Pray at night and keep my "Run" posted by the door
 DMC above like Jason falling to the floor
 My mind can carry of a picture perfect
 Of my Aunt Mary

Her face in the mirror like she wasn't burried
 I drink Hypnotiq let my conscience go (go)
 [Magoo]Tim you need to take it slow (slow)

[Timbaland]These endless songs got me waking up in cold sweats
 What gets the real time wondering where Aaliyah at
 I got a wife that watch another girl give me neck
 Fix my lunch with plastic wrap up on my pita bread
 I'll bite my tongue but she's so outspoken
 To that box of Saran bust her head wide open
 Handcuffs open my fists go up for Eminem
 And when he's walking out his courtcase
 I'll be walking in

[Chorus]I know you're safe (Whoooooo)
 You're gonna stay (Whoooooo)
 But your mind could change (Whoooooo)
 I'm going insane (Whoooooo)

I'm going crazy!

[Repeat][Magoo]You know them days when you troubled inside
 All you think about fuck paying bills
 You ignore em' you gone drink it out
 That's the way that I feel as I am writing this
 Sit back roll up a blunt take some delight in this
 You been invited to a piece of my sanity
 And vanity is absent does that weaken the man in me

My fantasy on side man reality bites
Who can't believe all these rappers let alone what he writes
I wasn't forced to lie to yall but I did
I don't own a plane or yacht or eat squid but
I'm entertaining there will be no explaining
I'm criticized for having fun
Killings more enovating they say
But anyway however ignorance chooses food
Its rude to tell you how you have been screwed
And I'm a part of the problem
And its racking my brain
Excuse me miss I'm half fool half insane
[Chorus][Timbaland]I can't believe that the world is so cold
That's why I keep a runny nose
And I wish my problems would go (Oh)
People don't know me
People don't ask me no questions
Bris Sparky D was an injustice
The greatest rappers man suffered depressions
So I'm signing niggas while Whodini's taking the publishing
My mind state is like the crime rate
A high percentage of your royalties is in my bank
New artists when you're trying to break
I'm prewarning you before you even hand me your tape (Let's go!)
[Chorus]
