Victory

Do Or Die

Victory

Victory

Victory

Victory

See it's because of us, (because of us)
That platinum shit belong to us, shit get that ridiculous
Y'all motherfuckas can't picture us, envy us
We the type of niggas that set it up, rush in the sto'
Put the gun in the mouth, everybody eat slugs before we leave out
Better you bleed through ya heart to ya mouth
Motherfucka I know that this the safe house
After I leave the coroner, bring 'em out
'scape route, got it made out
Put the money on the table, split the pay out
No way out, then spray out
Fuck y'all niggas we vs. folk, you'll be the first in a hearse to go
Seventeen hot for seein' ya know
For fuckin' wit my personal, dis bitch like what
My ? rush like merciless, show love or show blood

Victory's in my eyes
And I can't see
Y'all motherfuckas tryin' to fuck with me
Victory's in my eyes
And I can't see
Y'all motherfuckas tryin' to fuck with me

You ain't invincible, fuckin' wit a nigga that's critical
Nigga's talk shit, but I'm ready to go
Open with the glock and I'm ready to blow
Catch 'em at the border like mexico
Two to the head just to let you know
Fuck with us, bite the dust
Should have been a man that's righteous
Nigga was a nigga that we had to bust
Niggas in the coupe keep it tight for us

We can all go to jail now, grab money for bail now
Two keys wanna sell out, see the feds in the background
Tell them narcs in the lights out, in the bay with ya pipe out
Run like a white owl, red rum and the war's on
So y'all betta' get the hell on

Victory's in my eyes
And I can't see
Y'all motherfuckas tryin' to fuck with me
Victory's in my eyes
And I can't see
Y'all motherfuckas tryin' to fuck with me

I bust like, Russians
Dump it, fuck it
Old evidence, you truck it
Any ass left, you stomp it
Was it, something, that I claimed in this faith
Let it rain in every state
Or we can bang the same eight
Smoke some 'caine for my break
Thirty-two ho's to press ya take
Goin' through any minutes mayn
Do whatever here to get paid
If you comin', you better come with me
I'm about to make history
If they gotta the tee to fit me
I'ma get in where ya goin' and take them sleeves

Set the twins, hop in the benz
Do 160, pray for sins
Incredible high, nigga make endz
Puff on dope with a couple of friends
Smoke a couple of ho's, take a bend
Simple drink called hen & gin
All my niggas in the pen
When y'all get out it's on again
Y'all mad ho show tickin'
Put all the cum and stick the dick in
From ? it'll take a big man
(from ? it'll take a big man)

Chick-chick

Cock the glock, bitch shot

White ass po wanna hit the block
Wanna pull the tip, close shot
? on my wrist got the ho's hot
Turn the flows, got the rolls
Nigga from the hood got the finest ho's
All up in the club then I'm adios
Two to the bed, give me head and mo'

Victory's in my eyes
And I can't see
Y'all motherfuckas tryin' to fuck with me
Victory's in my eyes
And I can't see
Y'all motherfuckas tryin' to fuck with me
Victory's in my eyes
And I can't see
Y'all motherfuckas tryin' to fuck with me
Victory's in my eyes
And I can't see
Y'all motherfuckas tryin' to fuck with me
