

Good Kid

Kendrick Lamar

(Mass Hallucination, baby
Ill education, baby
Wanna reconnect with your elation
This is your station, baby)
Look inside these walls
And you see I'm having withdrawals
I'm a prisoner on his way
Trapped inside your desire
To fire bullets that stray
Tracking' tire just tell you I'm tired in random way
I should ask a choir what do you require to sing a song
Is a choir to have faith?
As the record spin I should pray
For the record I recognize that I'm easily prey

I got ate alive yesterday
I got animosity building, It's probably big as a building
Me jumping off of the roof is me just playing it safe
But what am i Supposed to do when the topic gets credible
And you understand that i ain't
Just know I'm accustomed to
Just a couple that live for trouble
And live in the street with rank
No better picture to pint
Than me walking for bible study
And call its homies because of your city notices my face
From a function that took its place
They was wonderin' if i may
Step on my neck and get blood on your nike checks
I don't mind because one day you'll respect the Good Kid, M. A. A. D. city
