Someone You Used to Know

Loretta Lynch

I ain?t gonna lie to you and say it didn?t hurt
To see you with someone new and you wearing my old blue shirt
But it didn?t kill me until we said hello
And I became someone you used to know
Like a friend, like a fool, like some guy you knew in school
Didn?t we love, didn?t we share or don?t you even care
I know we said we were through but I never knew how quickly I would go
From someone you loved to someone you used to know
Bet you didn?t tell him ?bout those weekends at the coast
Or how we used to argue ?bout who loved who the most
Well I guess I won that one, ?cause I still need you so

But to you I?m just someone you used to know
Like a friend, like a fool, like some guy you knew in school
Didn?t we love, didn?t we share or don?t you even care
I know we said we were through but I never knew how quickly I would go
From someone you loved to someone you used to know
Like a friend, like a fool, like some guy you knew in school
Didn?t we love, didn?t we share or don?t you even care
I know we said we were through but I never knew how quickly I would go
From someone you loved to someone you used to know
I?m not someone you love, I?m someone you used to know
