

Never Quite the Same (feat. P.Sanders)

Almost Kings

We gon' go back and forth with the games we play
I'm looking all around 'cuz I know it's changed
And I know (I know)
It'll never be quite the same

We gon' chase the past like we hope it lasts
Life is flying by now way too fast
And I know (I know)

It'll never be quite the same Verse 1:
It'll never be quite the same the day
That people around will know my name
And everything else will fall in place
Now, oh my god, I've had a taste
Of what it'd be like to rock a crowd
And making my mom and daddy proud
I remember the day I slowed it down
Articulating words pronounced
I'm bending it backwards here
We blowing up out of the atmosphere
Showing you people the passion's real
And now I think my asthma's cleared
I can breathe now

I can dream
I can be anything in the world I wanna be
'Cuz I, I put in the time here
I grinded hard y'all
We putting these cleats on
It's time to play hard ball
I'll never give up
Even when it's all corrupt

Hands to the sky 'cuz you know that we feelin' love CHORUS Verse 2 (P.Sanders):

Things are changing, montage
People comin' and go, but then they pop like a garage
And it's just life changing, if you know what I've been sayin'
Rappin' with the guitars is just a miracle in the makin'
They say, left and right but I guess I'm going up
No matter what they say, the feelings just not enough
Toss the mic, forget the moment and get past the hype
See, music never dies
It has an afterlife

Look at me, look at me, yea, look at me now

Life is passin' by

I need another round

King of the world

King of the dream

King of my hometown

You got one life to live

You better live it now
