

# So Obvious

## Runner Runner

It's obvious that my heart beats for you.

GO!

Lets Go! Go!

I need you here but your always so far away.

I call you up but you know its just never the same

cuz being closer to you is my sweetest escape

it's all i needed

I need you here but your always so far away.

This is our night

the look in your eyes says we can go all the way

Been losin my mind

broken inside

i want you to take my breath away

Its obvious that my heart beats for you

beats for you, beats for you

just let go tonite

were so close tonite.

I need you here but your out there on your own

Do you still look like the pictures in my telephone?

Hiding out in your room we can be alone

laughin out loud

you need me here but im always so far away

This is our night

the look in your eyes says we can go all the way

Been losin my mind

broken inside

i want you to take my breath away

Its obvious that my heart beats for you

beats for you beats for you

Its obvious that my heart beats for you

just let go tonite

we're so close tonite.

just let go tonite

we're so close tonite.

This is our night

look in my eyes we can go all the way  
Been losin my mind  
broken inside  
Take my breath away

This is our night  
the look in your eyes says we can go all the way  
been losin my mind  
broken inside  
i want you to take my breath away  
Its obvious that my heart beats for you  
beats for you beats for you  
Its obvious that my heart beats for you  
beats for you beats for you  
Its obvious (Go) that my heart beats for you(Go, lets go go)  
so obvious that my heart beats for you(Go, lets go go)

This is our night  
the look in your eyes says we can go all the way  
been losin my mind  
broken inside  
I want you to take my breath away  
Its obvious that my heart beats for you  
(Go) beats for you (Lets Go Go) beats for you  
its obvious that my heart beats for you
