I feel so bad, my spirit's weak
Somebody please, what's wrong with me?
What do you see?
I see a forest
What kind?
There's a light in the darkness
Whatcha gonna do?
I wanna walk in it
What you say??
I feel so bad, my body's weak
Somebody please, what's wrong with me?
What do you see?
I see a moth
What kind?
It looks like my lover
Whatcha gonna do?
I wanna chase it
Nani ittenno?
I feel so bad, my mind is weak
Somebody please, what's wrong with me?
What do you see?
I see a key on the ground
What kind?
Just a key, but it's shining
Whatcha gonna do?
I wanna pick it up
What you say??
I've got a feeling something's happening
It gives me a thrill but it's also very frightening
I feel so bad, my spirit's weak
Somebody plese, what's wrong with me?
What do you see?
I see a long wall
What kind?
It has no end
Whatcha gonna do?
Use the key to open it
What you say???
I've got a feeling something's happening

It gives me a thrill but it's also very frightening
