

Rejoice

Jamie Foxx

Star maker

First, unwrap my body like I'm your birthday gift
And like a birthday wish, tell me what you need and I got you girl
Let me perform for you, get it warm for you
And you're always welcome to another round of me and you Let your inhibitions go, go, let it go
I'm gonna make your makeup run, run, let it run
Gon' sweat your body out, make your body yell
You might think of backin' down And as the mattress springs squeak, squeak
Ooh I can feel your heart beat, beat
Going to make this night feel like weeks
When you're wrapped up in my sheets, baby open up wide for me And put your touch with my kiss, your skin
with my sweat
A slow jam with my stroke, get this love inside of your heart and rejoice
Let your love re-, ooh let your body rejoice
Ooh let your body rejoice When you're ready for round two, let these lips of mine anoint you
How could I ever disappoint you, oh look at you, oh look at you
Leave your footprints on the wall, take that pillow off your face
I got to see the passion in your face
When I'm in your sacred place right before you explode Let your inhibitions go, go
I'm gonna make your make up run, run, get naughty baby
Let the smell of my sweat and cologne turn you on baby And as the mattress springs squeak, squeak
Ooh I can feel your heart beat, beat
Going to make this night feel like weeks
When I sex you in my sheets, baby open up wide for me Put your touch with my kiss, your skin with my sweat
A slow jam with my stroke, get this love inside of your heart and rejoice
Let your love re-, ooh let your body rejoice
Ooh let your body rejoice Rejoice, like we just reached the finish line
Rejoice, to climax at the same time
Rejoice, like you just jumped the broom
Rejoice, like it's our honeymoon Rejoice, you and I should rejoice
Rejoice, like it's your birthday baby
Rejoice, put your love in my heart, baby Put your touch with my kiss, your skin with my sweat
A slow jam with my stroke, put this love inside of your heart and rejoice
Let your love, re-, ooh let your body rejoice
Oh let your body rejoice Put your touch with my kiss, your skin with my sweat
A slow jam with my stroke, put this love inside of your heart and rejoice
Let your love, re-, ooh let your body rejoice
Oh let your body rejoice Put your touch with my kiss, your skin with my sweat
A slow jam with my stroke, put this love inside of your heart and rejoice

Let your love, re-, ooh let your body rejoice
Oh let your body rejoice, oh rejoice
