Please Stay

Full Force

The trouble with my heart is it always goes astray
I guess that's the reason why you're leaving me this way
Before you leave my love, there's something I must say
If you leave, you'll turn my blue skies to gray
Please staySometimes when you're not here I squeeze my pillow tight
I need to have you somewhere near to make it turn out right
So I'll beg you girl, stay just one more night
If you stay, you'll turn my wrong ways to right
Please stay tonight
Oh baby, stay just one more night
Oh baby, stay just one more night
Oh baby, stay just one more night
Oh baby, stay just one more nightBefore you leave, my love
There's something I must say
If you leave, you'll turn my blue skies to gray
Please stayOh baby, stay just one more night
Oh baby, stay just one more night
Oh baby, stay just one more night
Oh baby, stay just one more nightStay, I just can't live without you
Stay, I just can't live without you
Stay, I just can't live without you
Stay, I just can't live without you
Living alone I just can't stand to be all alone
Living alone I just can't stand to be all alone
Living without you I know that I can't be alone
Living without you I know that I can't be alone
Stay in my corner
