

What It Means

Mates of State

I know what it means
It's a king on his feet with a cavalier face
Such a funny place
He's exhausted and shrewd
Not a man on the move
Just give him a pen And I can honestly say no
As he can honestly fight And I know what it means
And I know what it means And this red ink ain't dry
'Cause this cloth it's not right
Where are you coming from?
But this day it will end
Gather up all his friends and show off a smile And I can honestly say no
As he can honestly fight And I know what it means
And I know what it means
